

TodoPal

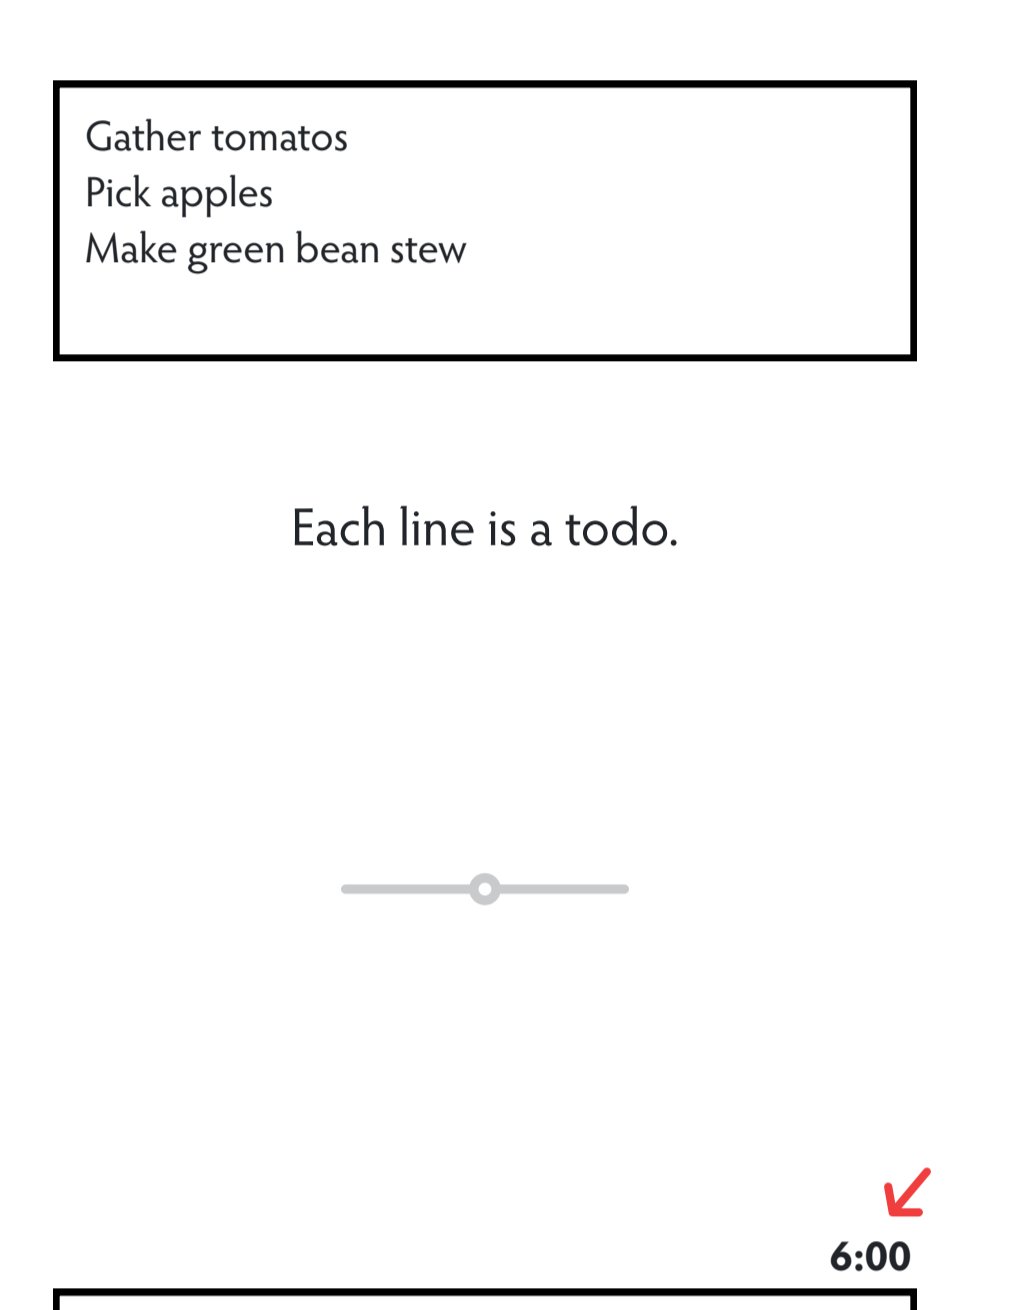

An Intro Guide

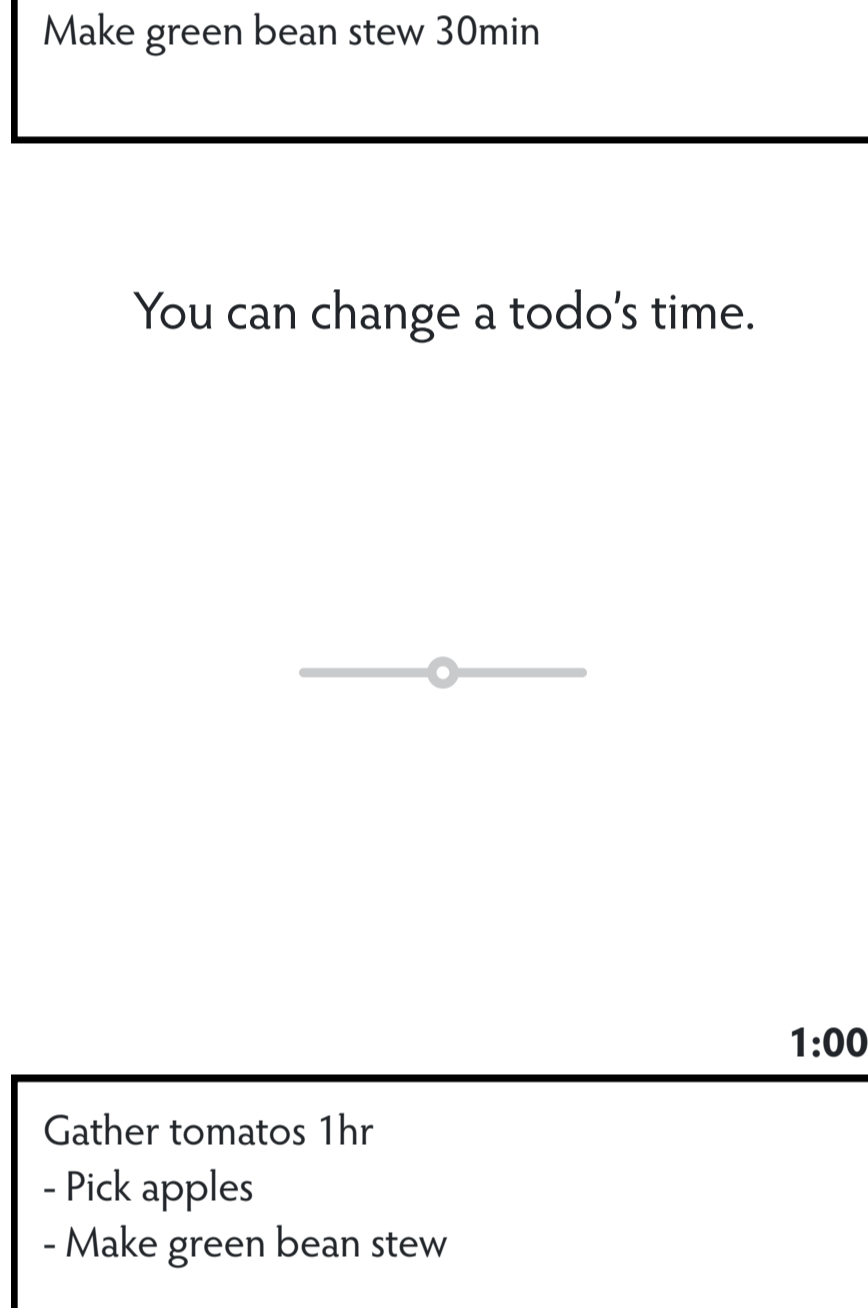

This is the main interface.

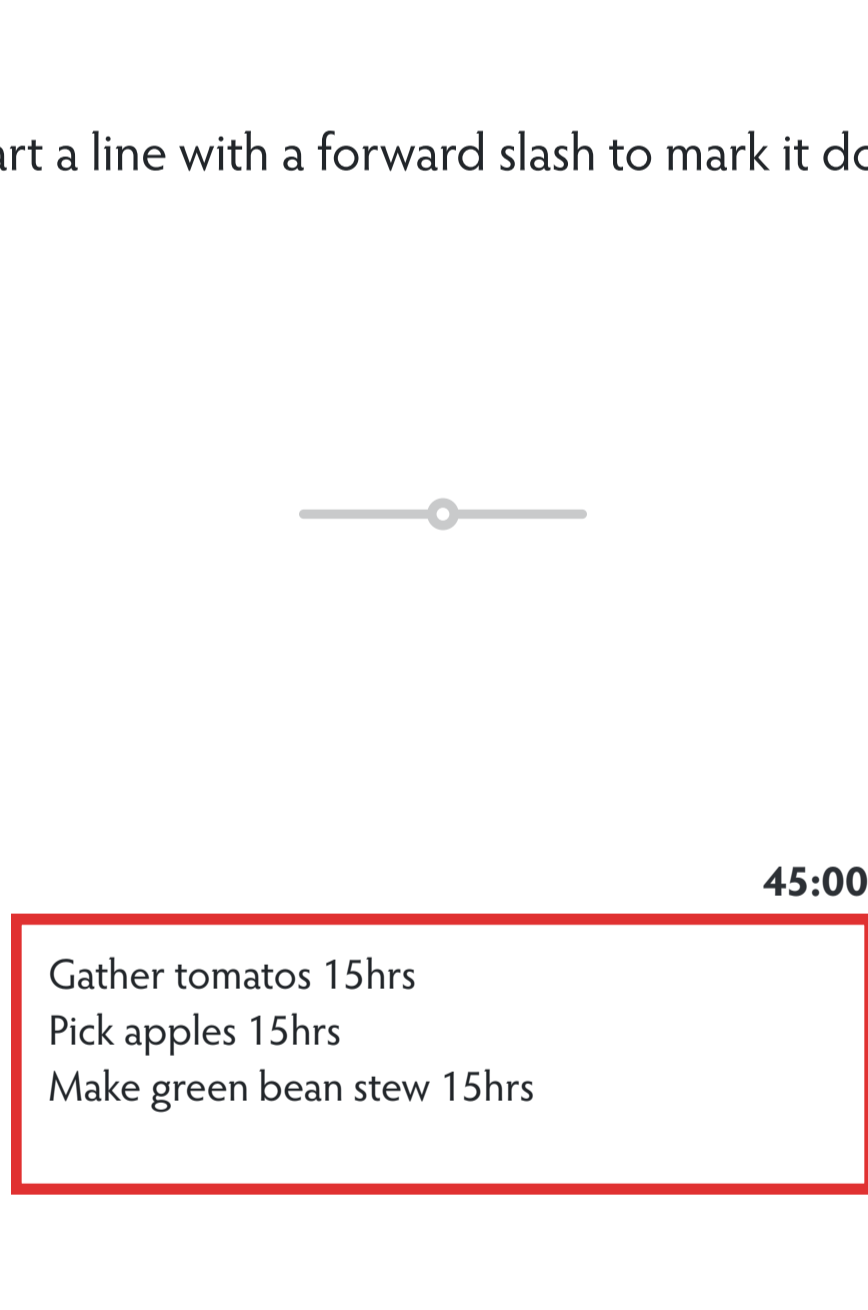

This area is where the fun happens.

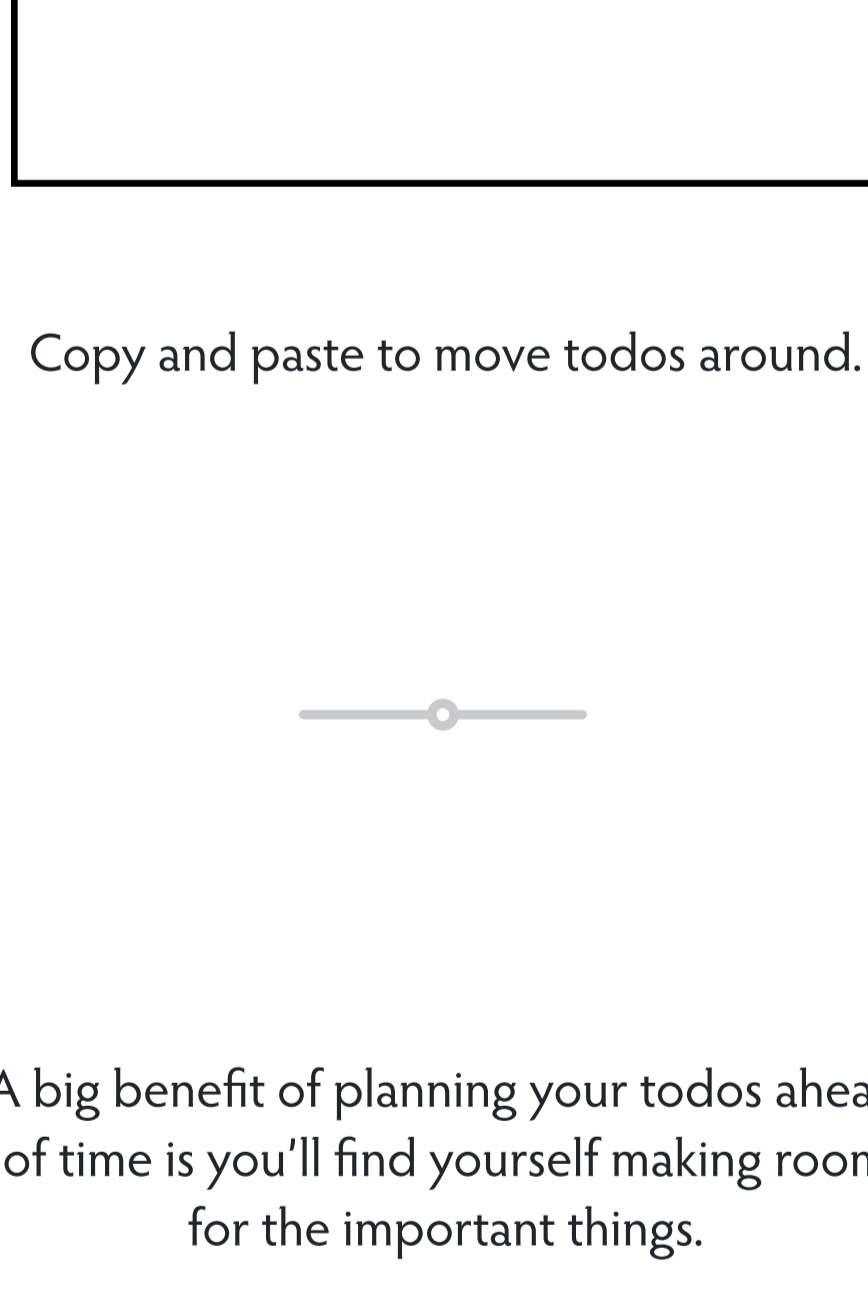

Let's focus on the first week.

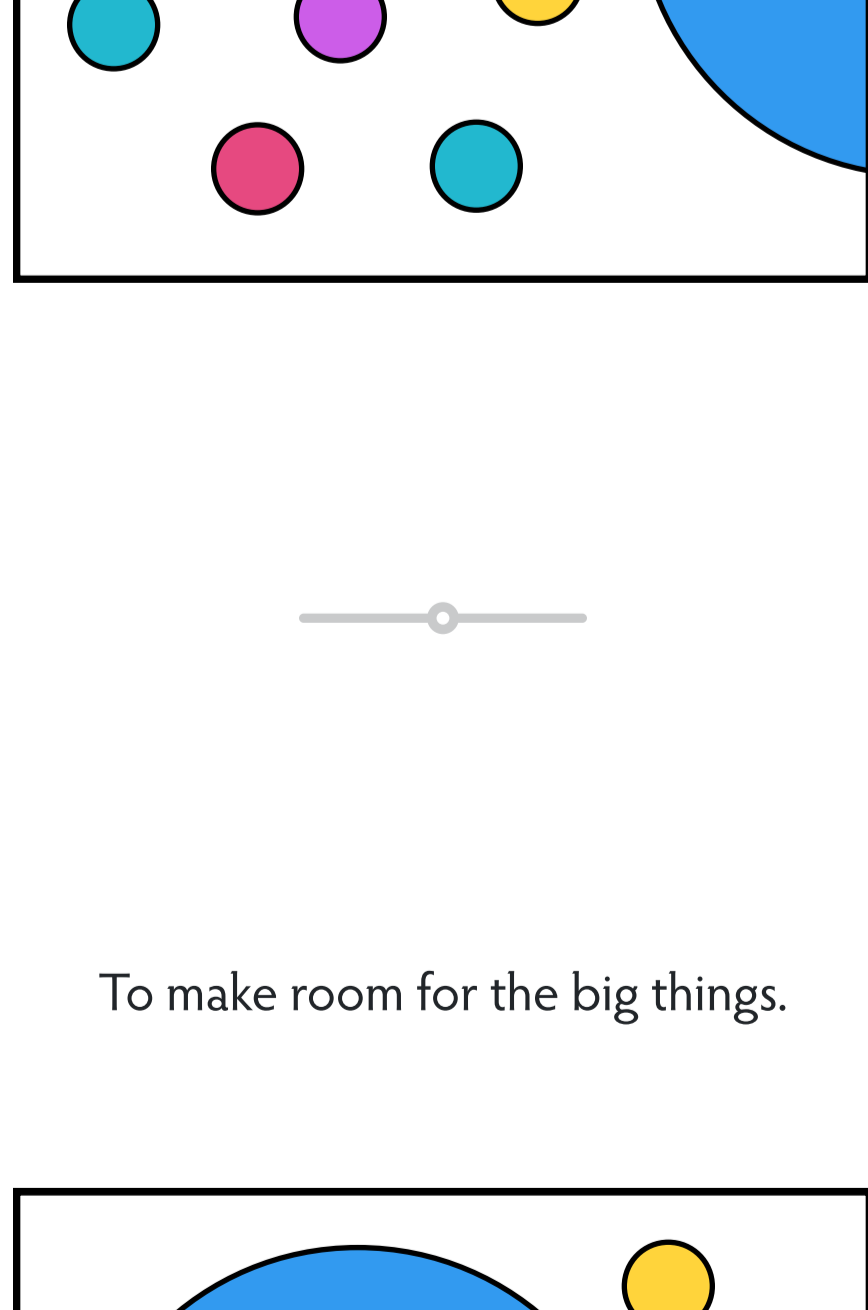

Each line is a todo.

Each todo is 2 hours.

You can change a todo's time.

Start a line with a forward slash to mark it done.

Get a warning when your todos fill up all of your time.

Copy and paste to move todos around.

A big benefit of planning your todos ahead of time is you'll find yourself making room for the important things.

Before long, you'll squeeze out the small distractions,

To make room for the big things.

TodoPal
